

DragonBoard DB24 Panel

Fire-Rated, Structural Magnesium Oxide or "MgO" Subfloor Panel

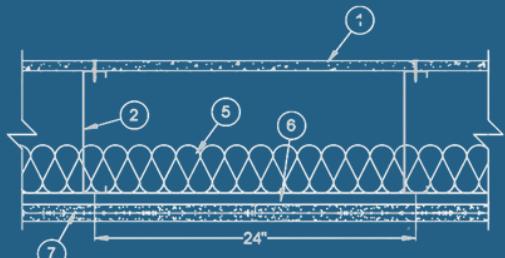

SUITABLE FOR USE WHEN 24" OC SPAN IS
REQUIRED FOR COLD FORMED STEEL
FRAMING AND TRADITIONAL WOOD
FRAMED APPLICATIONS

Replaces Poured Concrete:
Mid-Rise, Hotels, Condos, Student Housing,
Multi-Family, Panelizers, Mezzanine, Modular

DRAGONBOARD EXCLUSIVE UL DESIGN

G575 PER ASTM E119

2 hour rated floor/ceiling assembly

1. UL Certified DRAGONBOARD SUBFLOOR
2. Structural Steel Members consisting of cold formed metal joists or trusses

3. Joist Bridging
4. Clip Angles
5. Min 3-5/8" Fiberglass Insulation
6. Resilient Channel or Hat Channel
7. Gypsum Board per UL G512

Product Installation:
Installs directly to steel or wood framing
Grabber Fastener CGH8185LG
Simpson Fastener CBSDO
Cuts with a Circular Saw

Panel Size: 4x8x3/4"
Panel Edge: Ship Lap
Weight: 4.55 lbs per SQ FT
Pieces per Unit: 22 pc
Unit Weight: 3,200 lbs

Code Compliant - IBC & IRC
ASTM E136 Passed
ASTM C1185 Flexural Strength
ASTM E119-UL Fire Rated Assemblies
UL-Certified BZXX.R22189 US & CAN
ASTM E455-Diaphragm
ASTM E90 & ASTM E492-Sound
ASTM G21-Mold
No Asbestos, Formaldehyde or VOC's

MULTI-SPAN ALLOWABLE UNIFORM LOAD (PSF)

DB 24 Panel - 18 mm MgO

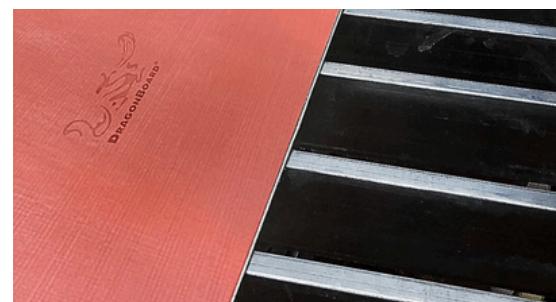

ON CENTER SPACING

DEFLECTION LIMIT	12"	16"	24"
L/240	1371	771	282
L/360	1371	634	188
L/480	1127	475	141
L/600	902	380	113

- Allowable loads are determined by the smaller value between the ultimate test load with a safety factor of 2.5 or the load corresponding to the specified deflection.
- The analysis is conducted under multi-span conditions.
- The designer of record for the specific job is accountable for assessing the relevance of these values for each particular application.
- Sealed load table calculations can be provided upon request.

RED DRAGON PANEL

- Reaches a 24" oc span
- Feature's our exclusive Red Siloxane Sealer coating
- Provides enhanced moisture protection
- Increases durability during the construction phase

Environmental Stewardship

DRAGONBOARD USA supports the programs of the United States Green Building Council (USGBC), and employs a full-time-LEED Accredited Professional (A.P.) on staff.
