Product Category: DRAGONBOARD® MgO Structural SubFlooring

Product Name: DRAGONBOARD®

Product Description: 3/4” Load-bearing SubFlooring

Website: www.DRAGONBOARD.com

Material and Shape Property Notes:
Composition: Magnesium Sulfate
Thickness: 18MM (3/4”Nominal)
Edges: Shiplap
Dimension: 4’x8’
Pieces/Unit: 35
Unit Weight: 4400 lbs

Properties:
Weight: 4 pounds per foot
Flame Spread: O per ASTM E84
Smoke Development Index: O per ASTM E84
Fungus/Mold: Non-Nutrient per ASTM G21
3rd Party Certification: Manufacturing verified & inspected by Underwriters Laboratories

Company-Wide Environmental Stewardship
DRAGONBOARD USA supports the programs of the United States Green Building Council (USGBC), and employs a full-time LEED® Accredited Professional (A.P.) on staff.

Our primary manufacturing facility has in-house recycling of both manufacturing and office waste and encourages alternative transportation by being located near transit facilities and having bicycle storage and shower facilities for commuters. We have facilities for and encourage rail delivery of steel rather than trucked-in product for reduced transportation emissions and maintain our own fleet of trucks for efficient delivery of our finished products. Incentive programs are in place to encourage employees and customers to conserve energy and natural resources: at home, at work, and in our communities.
